Aug 2016 - 2019   CGPA: 8.34/10

Mulund College of Commerce

SKILLS

- .NET Technologies
  - Microsoft Azure
  - ASP.NET MVC
  - ASP.NET Core
  - Windows Form Application
  - AddinExpress(Microsoft Office Plugins)

- Services
  - Web API
  - REST API
  - WCF Service
  - Windows Service

- Database
  - MS-SQL

- Backend Language
  - C#
  - VBA

- ORM
  - Dapper
  - LINQ To SQL
  - ADO.NET
  - ODP.NET
  - Entity Framework

- Web Development (Familiar)
  - HTML 5
  - CSS
  - AJAX
  - Jquery

WORK EXPERIENCE

Equitec Technology for Finance   Jan 2021 - Nov 2023

Software Developer   Kurla, Mumbai

Description

Worked on the base product of company which is widely used by organizations involved in Equity Research. Dreams is a very compact application, which have different modules such as Microsoft Office Plugins(Addin Express), Control Panel & Research Portal (ASP.NET MVC) and a centralised API(ASP.NET WEB API). Also created an engine to convert word document(Research report) to Website(ASP.NET MVC)

Projects

- Equibase (Microsoft Office Add-ins)
  - Migration of application from VB.NET to C#
  - Worked across the complete software development life cycle viz. requirement gathering, planning, creation and deployment.
  - Creation of API, Excel Plugin(Data Mining, Charting tool, Data storage) Customer Relationship Management (Web App)
    - Implemented role-based MIS with filters, print and export options.
  - Utility Software (Windows Service)
    - Implemented for uploading file on the server automatically.
  - Web API
    - Implemented the API using Dapper ORM
  - Excel Macro
    - Implemented for saving time which automatically performed daily routine task

HDFC ERGO General Insurance   Dec 2023 - Present

Software Developer   Bhandup, Mumbai

Description

- Working on Portal Agency Management System project is a web-based application developed using the ASP.NET MVC framework. This system is designed to streamline and enhance the management of agencies by providing a centralized platform for various administrative tasks.
- Different roles are defined (e.g., admin, agent, manager) with corresponding permissions to manage and control access levels.
- The dashboard provides a snapshot of essential information, such as total clients, ongoing projects, and revenue statistics, allowing users to quickly grasp the agency's overall performance.
- Project Technology
  - ASP.NET MVC
  - Web API
  - Web services
- For Code storing
  - TFS
